

Ilya Hsieh-Jarov

UBC Engineering Physics '29

236 334-9425 | ijarov94@gmail.com | [LinkedIn](#) | [GitHub Portfolio](#)

EDUCATION

The University of British Columbia | Engineering Physics

Vancouver, BC

Cumulative Average: 86% — Dean's List

2024 - 2029

EXPERIENCE

Turing Internship Program

May 2025 - Jan 2026

Remote Work

Palo Alto, CA

- Subcontracted by top tech companies, including Google, to perform data analysis and annotation to train LLMs.
- Contributed to refining Google Gemini, supporting its advancement in performance and output quality.
- Leveraged advanced STEM expertise to evaluate and diagnose complex inaccuracies in AI-generated solutions.

UBC Physics Olympics

Feb 2024 - Mar 2024

The University of British Columbia

Vancouver, BC

- Reinforced the importance of teamwork and showcased problem-solving skills and ingenuity.

UBC Geering Up Engineering Outreach Junior Instructor Program

Jul 2023 - Aug 2023

Southridge Secondary School

Surrey, BC

- Facilitated engaging STEM lessons and hands-on activities to inspire curiosity and learning in young students.
- Demonstrated engineering concepts and designed projects that applied student learning in creative ways.

PROJECTS

Autonomous Robot — ENPH 253

May 2026 - Aug 2026

University Robotics Design Project

Vancouver, BC

- Designed and prototyped the robot's mechanical systems in CAD, including a tank-steering drivetrain and rack-and-pinion and worm-gear mechanisms for arm extension, pitch, and gripping.
- Integrated wheel encoders, phototransistor-based line sensors, and actuators to enable autonomous navigation and object manipulation through iterative testing and troubleshooting.

Power Electronics & Control Systems

Sep 2025 - Dec 2025

University Lab Coursework

Vancouver, BC

- Assembled DC-DC boost converters and logic circuits, verifying voltage regulation and system performance.
- Created an RPM-feedback motor-control system to maintain constant rotational speed under varying loads using feedback control principles.

SONAR-Activated Autonomous Claw

Jan 2025 - Feb 2025

University Technical Design Coursework

Vancouver, BC

- Designed and programmed an autonomous robotic claw using C and SONAR sensors to detect and retrieve objects.
- Performed iterative testing and troubleshooting of sensors and actuators to optimize mechanical assembly.

Custom Garden Hose Adapter (Assistive Device)

Oct 2024 - Nov 2024

SolidWorks Design Project

Vancouver, BC

- Engineered a 3D-printable adapter in SolidWorks for an individual with limited dexterity, focusing on ergonomic, user-centered design that balanced functionality, safety, and manufacturability.

TECHNICAL SKILLS

Languages: Java, Python, C, L^AT_EX, MATLAB. Experienced with IntelliJ, MS Office, VS Code, Onshape, and SolidWorks.

Technical Experience: UBC SMS & Woodwork & Metalwork including mills, lathes, waterjet, and MIG welders.

Certifications: EDX IBM Python Basics for Data Science — Issued Aug 31, 2021.
